SUMMARY

I'm a computer science student in semester 6 at Binus University with a strong passion for technology and system analysis. My academic journey has given me a comprehensive understanding of application design, performance optimization, and ensuring robust functionality. I have studied Android development using Kotlin as well as website development, and I have perfected my skills in technical and analytical fields. I want to use my knowledge and skills to analyze system requirements, design solutions, and drive innovation in your company, provide high-quality jobs, and bring creative ideas to support the development and improvement of your systems and technologies.

EXPERIENCE

Mobile Development Cohort

02/2024 - Present

Bangkit Academy ↗

In this Bangkit Academy activity, I attended a course related to mobile development using Android Studio with the Kotlin programming language. In this activity, I was given a course to learn and explore Mobile Development.

- Creating Project Android Application with Kotlin.
- Learning Android Mobile development with Kotlin

Hackathon SoCS Utilizing AI for Sustainable Development Goals

08/2023 - 10/2023

Website Dialogdiri

In this hackathon, I created an AI-based website related to mental health that is used by users to tell stories with the bot feature service, and users can also use the level of stress they are experiencing.

- Creating a Website with an AI technology chatbot.

Volunteer Disability Empowering

10/2022 - 01/2023

Teach For Indonesia

The Disability Empowering event from TFI wants to help UMKM with disabilities to be further developed. In the event, I became a participant to participate in helping UMKM by making logos, company video profiles, and UMKM social media.

- Creating videos, Logo, and Social Media Account for UMKM

Committee in Bootcamp Flutter

10/2022 - 01/2023

HIMTI

The Flutter Bootcamp event was held online using the Discord application platform and Zoom to conduct meetings and boot camp activities. In the boot camp, learn about making Android applications using the Flutter framework and Android Studio IDE.

- MC the training session
- Secure 20 participants in Bootcamp registration

LO Speaker Webinar Series

10/2022 - 10/2022

HIMTI

The seminar was a 3-day online event. The event discussed the advantages and disadvantages of metaverse technology at this time and the opportunities created by metaverse in the future. In the event, I helped in contacting and finding speakers as speakers in the event.

- Obtained 3 speakers
- Get about 35 - 50 participants in the 3 days of the webinar event.

Contestant at ICPC Asia Jakarta Regional Contest ICPC ↗ Participated in the competitive programming competition at the ICPC event	10/2022 - 10/2022
Committee Techno Galaxy 2022 HIMTI The Techno Event was carried out in a hybrid manner, I became a committee in the equipment division and served as a coordinator in live streaming on YouTube. <ul style="list-style-type: none"> Assisted in coordinating YouTube live streaming. Obtained about 100 views in streaming and 30 participants came onsite. 	07/2022 - 09/2022

Bootcamp Fullstack Website Developer HIMTI In this activity, I learned about how to create a website project using HTML, and CSS with Bootstrap and also using the Laravel framework to optimize web performance and connect to the MySQL database. <ul style="list-style-type: none"> Understand the use of HTML, and CSS in building a website. Understanding in creating a website project with Laravel. Understand the database on the website. Create a Laravel website project. 	10/2021 - 01/2022

EDUCATION	
School of Computer Science Binus University - Bachelor's degree	09/2021 - Present

CERTIFICATES	
Bootcamp Fullstack Website Developer HIMTI	01/2021 - Present
Belajar Prinsip Pemrograman SOLID ↗ Dicoding Academy	04/2024 - 04/2027
Belajar Penerapan Machine Learning untuk Android ↗ Dicoding Academy Learn how to implement the Machine Learning model to Android apps using Kotlin and Android Studio	04/2024 - 04/2027
Belajar Fundamental Aplikasi Android ↗ Dicoding Academy Learn how to create Android apps using Kotlin and Android Studio with API and local database	04/2024 - 04/2027
Belajar Membuat Aplikasi Android untuk Pemula ↗ Dicoding Academy Learn how to create simple Android apps using Kotlin and Android Studio	03/2024 - 03/2027

SKILLS			
Android Development (Kotlin)	Intermediate	Front - End Website	Intermediate
UI/UX	Intermediate	Laravel	Basic

React Js	Basic	Effective communication	Advanced
Collaboration Skills	Expert	Analysis	Intermediate
Software Development Life Cycle	Advanced	Responsive Design	Intermediate

LANGUAGES

English	Intermediate	Indonesia	Fluent
